Survey Solutions Web Interview

If necessary, switch to a different language of interviewing.

When filling a questionnaire, proceed from start to finish navigating through all sections and subsections.
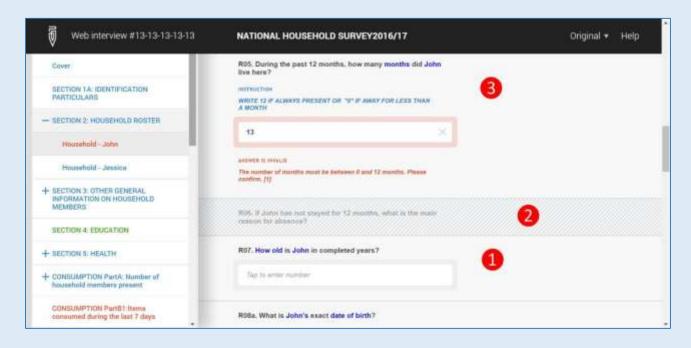

More sections and questions can be found when scrolling the screen. Make sure you answer all of them.

If necessary, you can navigate back and revise earlier answers.

Overview and questionnaire navigation

1. Title panel contains: interview number, survey name, language selector, and link to help.
2. Table of contents allows navigation to various questionnaire sections and subsections. Color coding: blue = to be completed, green = already completed; red = completed with errors.
3. Section panel contains questions and options of the current section.

Resuming an interview

Your session has timed out

Your session has timed out because you didn't do any action for 15 minutes.
Please reload the page to continue this interview.

RELOAD

If the respondent needs to interrupt an interview for a longer time, and close the program or restart a computer, he/she should retain her own personalized interview link, which can be copied at any point after clicking on the initial start button. The link contains a long system generated interview case id.
